25 fps on all 16 channels at
D1 (720 x 576 pixels) resolution
16 channel, real time, audio recording
MPEG4 **hardware** compression
Affordable!

**1 mile by 1 man in 3:59.4 minutes = breakthrough**

Occasionally, during the course of history, a breakthrough achievement changes human expectation for good. These achievements are raised to iconic status. Here are two:

May, 1954, at Iffley Road, Oxford. Roger Bannister becomes the first person in history to run one mile in less than 4 minutes with an iconic time of 3 minutes 59.4 seconds.

52 YEARS LATER...

May, 2006, at the Dowshu head offices in Cork and Warrington. Dowshu launches the **ICON**, the first ever boxed DVR to record at 25 fps on all 16 cameras simultaneously at D1 (720 x 576 pixels) resolution with real time audio.

**16 channels at 25 fps & D1 resolution = breakthrough**

Dowshu, makers of modern ICONS.
