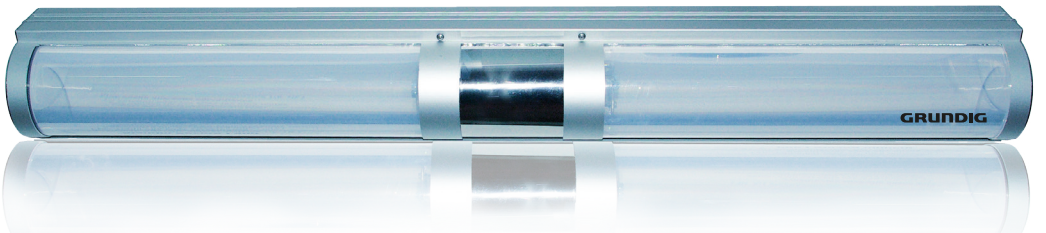
ALADDIN

COVERT PROTECTION AGAINST VANDALISM



FOR A GOOD REASON
GRUNDIG

SAVE TIME, MONEY AND ENERGY WITH THE GRUNDIG DISCRETE VANDAL-RESISTANT CAMERA

ALADDIN PROTECTS AREAS AT HIGH RISK OF VANDALISM

The Aladdin security camera from Grundig offers a unique solution to high risk assets such as ATMs and communal letter boxes. The Aladdin is hidden inside an LED lamp and as such is undetectable. The premium micro-camera is very compact, with a pin-hole lens, and can be installed in virtually any location without being recognized as a camera.

Most vandals and thieves try and damage CCTV cameras at high risk locations, such as ATMs. If this occurs, CCTV evidence is usually impossible to obtain. The Aladdin, however, is rarely targeted because it is not recognised as a camera. It will therefore continue to record events.

If the Aladdin is installed alongside a false or low-cost camera, criminals target the false camera but remain unaware that the Aladdin is recording their actions.

CHARACTERISTICS

A COMPACT CAMERA WITH OUTSTANDING FUNCTIONALITY UNIQUE, DISCRETE AND POWERFUL

- Simple to install and easy to operate
- Illuminators and camera are IK 10 certified vandal-resistant (20 joules shock / up to 8 kg per 50 cm resistant)
