

Dowshu CCTV.

The Swiss Army penknife of the security world.

DOWSHU 

Dowshu CCTV systems are multi-functional.

We commissioned independent research in to today's care industry and the results confirmed our belief. Our cutting edge technology is invaluable for the protection of care home staff and service users as well as in the management of the care home businesses themselves.

Dowshu CCTV systems can help provide:

- ▶ Evidence to establish facts in litigation claims, reducing fraud.
- ▶ Proof of compliance with many CSCI regulations and procedures
- ▶ Indisputable evidence of staff professionalism
- ▶ Brand protection through proof of good practice
- ▶ Remote viewing of homes for the management of staffing levels, training requirements, home layout or spotting health risks
- ▶ Remote "virtual" visiting when on-site visits are not possible

Why not call us now to discuss your CCTV requirements:

Dowshu is one of the worlds leading CCTV manufacturers. We can design CCTV systems to suit any care home business. We have vast experience of multi-site applications including hotel and retail chains, stadia and shopping malls as well as large industrial and local authority customers. We take all civil and privacy laws into account. Our CCTV systems are simple to operate with clear on screen instructions requiring only basic computing skills.
